

Dear Center Cut Customer,

We are committed to the health and safety of our employees and customers. To help reduce the spread of COVID-19, we are taking necessary precautions such as closing our office to the public, wearing masks while working in the field, and walking properties while maintaining a 6 feet distance.

We will continue to operate and provide an essentially exceptional landscape maintenance service to our commercial and HOA clients. Our services have not and will not stop during these uncertain times. The health of our employees and communities are most important. We have supplied our team members with necessary personal protective equipment to slow the spread of this pandemic. We embrace these challenges and look forward to a brighter future on the other side.

This pandemic has brought us together to reinforce our strength in humanity. We will continue to prioritize our health and the health of those around us. Through all of this, we carry on to always emphasize what is most important – our clients, our team members, and our communities.

Sincerely,

A handwritten signature in black ink, appearing to read "Reza Taba".
